TEKNIGAS**

A Company of Watts Industries Europe B.V.

BLACK TEKNIGAS

POWERING THE UK'S GAS CONTROL NEEDS

Black Teknigas is the UK's leading manufacturer of combustion, industrial, medical and laboratory gas control equipment. With the most comprehensive range of gas control solutions available, we serve a wide range of market sectors and customers from large multi-national companies to small end users. What's more, we're getting bigger and better...

As a division of Watts Industries, one of the world's leading manufacturers of valves and controls, Black Teknigas is truly going from strength to strength.

Watts Industries has 55 facilities and 6,500 employees around the globe, with manufacturing plants located throughout Europe, North America and Asia, backed by an impressive strategic warehousing and distribution network.

All of which means one thing. When you turn to Black Teknigas for your gas control equipment, you can expect an added-value service and genuine world-class support.

Black Teknigas the name for gas control products in the UK

We offer an in-depth service to Original Equipment Manufacturers across a wide range of industries, supplying products in volume either directly, or through our extensive Distribution network across the UK and the rest of the world.

Black Teknigas also uses its ties with other key members of the Watts Industries family to advance its offering, drawing on their expertise in electronics, tube manipulation and plumbing and heating products.

We can now claim to offer one of the largest and most diverse range of gas control solutions available anywhere, serving clients of the calibre of British Airways, the Royal Air Force, the London Underground and the BOC Group.

Black Teknigas. Gas control at its best.

In-house engineering and CAD design

Fabrication and brazing all under one roof

GAIN CONTROL WITH AN OUTSTANDING HIGH PRESSURE PRODUCT RANGE

In an industry where safety and reliability are absolutely critical, it's good to know you can rely on Black Teknigas. We're totally committed to meeting the highest standards possible, both in the quality of our products and the outstanding support we offer to each and every one of our customers.

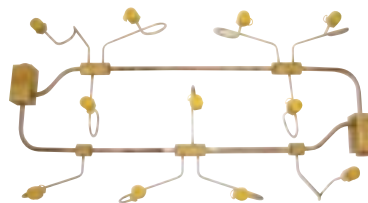

Black Teknigas has become a byword for excellence. This is testimony to the truly progressive way we develop and manufacture all of our products for the control and distribution of high pressure compressed gasses.

To stay ahead of the game we're continually investing in the latest cutting-edge technology and modern facilities.

The result is one of the most advanced manufacturing capabilities ever seen. One that encompasses everything from CAD design to high pressure, environmental and life testing; CNC turning and milling machining to the certificated welding and brazing of a variety of materials; plus cleaning and degreasing to oxygen standards. All carried out under one roof at our impressive UK facility.

It also means that Black Teknigas has one of the most extensive high pressure product ranges available anywhere, including:

- Multiple cylinder pack manifolds
- Industrial gas control equipment
- Medical gas control equipment
- Laboratory gas control equipment
- Gas regulators
- Safety release valves
- Regulators and heaters

Moreover, whichever Black Teknigas product you select, you can be sure it has been designed and certified to comply with BS EN ISO9000, and the highest and most stringent European and world quality standards.

Certified welding facilities on site

Quality control throughout manufacture,
assembly and testing

EASE THE PRESSURE WITH OUR IMPRESSIVE SERVICE AND SUPPORT

Totally proactive Black Teknigas is always anticipating in a desire to respond to the changing needs of its clients. We look further, delve deeper, understand better and push back the boundaries in an effort to advance gas control efficiency – and deliver the best added-value customer service available.

Black Teknigas is effectively a one-stop shop.

Whether you're buying directly from us at our manufacturing base near Huntingdon, or through our worldwide distribution network, you'll find we're perfectly placed to provide you with the right high pressure gas control products, fast.

Black Teknigas products are always available to meet the requirements of our wide and varied customer base.

Watts the name for service and support

The staff at Black Teknigas all have a background in the industry and are ready to help you find the most suitable and cost effective solutions possible.

We have experienced customer service specialists waiting to guide you through our product range and give you informed advice on sizing and specifying.

Full support is also available across our entire product offering with a wide variety of publications and CD ROM's.

You can also be sure that the products we supply are competitively priced. That's because, as a major player in the market, we are committed to low cost manufacturing and investing in product development.

Quality assembly in clean room conditions

State of the art cleaning and degreasing

Product range Watts Industries
